EDUCATION

JSS Academy of Technical Education, Bengaluru

Bachelor of Engineering, Information Science & Engineering — CGPA: 8.7

Bengaluru

Nov 2023 – Jun 2027

EXPERIENCE

Zysk Technologies — Software Development Intern

Jun 2026 – Present

- Working on full-stack applications with MERN Stack, Next.js, Laravel, MySQL and PostgreSQL
- Developing REST APIs, authentication systems, database solutions and third-party services
- Building AI-powered features using LLMs and AI automation workflows

IEEE Student Branch JSSATEB — Webmaster

May 2025 – Present

- Developed and deployed the official IEEE SB website with responsive UI, optimized performance, and modern frontend practices
- Collaborated in a team environment to implement feature updates and maintain code quality

Google Developer Groups (GDG) JSSATEB — Tech Member

Nov 2025 – Present

- Assisted students in completing Google Cloud Study Jams by guiding them through cloud labs and concepts
- Contributed to organizing Eclipse, a national-level hackathon, by handling technical operations and event coordination

ACHIEVEMENTS

- Top 10 Finalist — Nasiko's Buildathon Bengaluru (2026)** at Microsoft Office Bengaluru for building "Nasiko Request Layer," a resilient AI traffic-control system using Redis, BullMQ, rate limiting, and live monitoring
- Top 10 Rank — SJBIT Hackathon (2025)** for developing MediFind, an AI-driven medical assistant web application
- Built and scaled a 250K+ follower Instagram music community through content strategy and audience growth**

PROJECTS

GoViral-Pro – AI Influencer Marketing Platform

[Demo Video](#)

MERN, Flask, Scikit-Learn, Stripe, Socket.io, Tailwind CSS

- Designed and developed a scalable full-stack web platform enabling collaboration between brands and creators
- Built REST APIs with authentication and Stripe integration
- Engineered a machine learning pricing model using Scikit-Learn to optimize campaign pricing based on engagement metrics
- Implemented real-time bidirectional communication using Socket.io for low-latency negotiations

MediFind – AI Medical Assistant Web App

[Project Link](#)

React, Node.js, Google Maps API, Machine Learning

- Developed an OCR-based medicine detection system with real-time pharmacy discovery using Google Maps API
- Built backend services to process user queries and integrate ML-based ranking of pharmacies
- Optimized pharmacy recommendations using Random Forest based on proximity, availability, and ratings

LegalEase – AI Legal Document Assistant

[Project Link](#)

MERN, OCR, RAG, JWT

- Built a backend-driven document processing pipeline using OCR and retrieval-augmented generation (RAG)
- Designed RESTful APIs for secure file upload, parsing, and summarization of legal documents
- Implemented JWT-based authentication and authorization with protected API routes

TECHNICAL SKILLS

Frontend:

HTML5, CSS3, JavaScript (ES6+), React, Next.js, Tailwind CSS

Backend:

Node.js, Express.js, REST APIs, Authentication, Authorization, JWT

Databases:

MongoDB, PostgreSQL, SQL, SQLite

Languages:

JavaScript, Python, Java, C

DevOps/Tools:

Git, GitHub, Postman, Vercel, Render, CI/CD Basics, AI-Assisted Development Tools

AI/ML:

Scikit-Learn, OCR, RAG, Gemini API

Other:

Google Maps API, File Upload APIs, ImageKit, Socket.io, Redis, BullMQ

CERTIFICATIONS

- NPTEL – Introduction to Machine Learning (Elite, Top 2%)**
- Oracle Cloud Infrastructure – AI Foundations**
- AWS Cloud Practitioner Essentials**

IIT Kharagpur

Oracle University

Amazon Web Services
